ICM Poll for BBC Wales

**Fieldwork dates:** 19th – 26th February 2015

**Interview Method:** Telephone.

**Population effectively sampled:** All adults aged 18+

**Sampling Method, RDD:** A random sample of telephone numbers was drawn from the entire BT database of domestic telephone numbers across Wales. Each number so selected had its last digit randomised so as to provide a sample including both listed and unlisted numbers.

**Sample size:** 1,000

**Data weighting:** Data were weighted to the profile of all Welsh adults aged 18+ (including non telephone owning households). Data were weighted by sex, age, social class, household tenure, work status and region. Targets for the weighted data were derived from the National Readership survey, a random probability survey comprising 36,000 random face-to-face interviews conducted annually.

The data were further weighted by declared votes among people living in Wales in the 2010 general election. The weighting scheme is designed as follows:

**Questions:** The computer tables attached in PDF format show each question, in full, in the order they were put to respondents, all response codes and the weighted and un-weighted bases for all demographics and other data including but not limited that published.

**Further enquiries:** martin.boon@icmunlimited.com

**British Polling Council:** ICM is a member of the British Polling Council and abides by its rules. http://www.britishpollingcouncil.org/
### St. David’s Day Poll 2015
Fieldwork Dates: 19th - 26th February 2015

**Table 1**

Q.1 Some people have said they would not vote in a new General Election to the Westminster parliament, while others have said they would vote. I would like to know how certain it is that you would actually vote in a general election tomorrow.

**Base:** All respondents

Prepared for BBC Wales by ICM Unlimited
Table 10

Q.7 Thinking now about university education, the Welsh Government currently pays around £5,000 per year towards the university fees of a Welsh student whether he or she is studying in Wales or elsewhere in the UK. This means that £90m of Welsh Government money is going to universities outside of Wales. Which of the following statements do you most agree with?

Base: All respondents
