

Hope Not Hate / National Union of Teachers

18-24 year old poll

Fieldwork dates: 30th May-1st June 2017

Interview method: Online

Population effectively sampled: All GB adults aged 18-24

Online Sampling Method: A representative sample was selected at random from the NewVista panel of 200,000+ adults, with sample selected in proportion to 18-24 population distribution.

Sample size: 1,002 GB adults aged 18+

Data weighting: Data were weighted to the profile of all adults aged 18-24. Data were weighted by sex, age, and region. Targets for the weighted data were derived from the Census updated by mid-year population estimates.

Weighting by past votes – online

The sample was not weighted to 18-24 voting in the 2015 Geeral Election, information not being available.

Weighting for turnout

ICM's old style 10-point self reported turnout likelihood scale was employed, with a factor for each chosen point on the scale applied to each individual. It is not possible to generate reliable targets for sub-groups of 18-24s necessary for ICM's now standard turnout probability matrix.

Weighting for political interest

The data is weighted to the standard question on level of interest in politics, derived from BES 2015 for 18-24s.

Voting intentions: ICM derives vote intentions from 2 questions.

First of all respondents are asked if they are registered to vote in UK elections. Those not registered are excluded from vote intention calculations.

Then, respondents are asked how likely it is that they would be to go and vote in a new election, although this question is no longer used to create turnout factors. Those who say they will vote are asked to say which party they would support in a new election.

Adjustment. No post fieldwork adjustment to voting intentions was conducted.

Questions: The computer tables attached in PDF format show each question, in full, in the order they were put to respondents, all response codes and the weighted and un-weighted bases for all demographics and other data including but not limited to that published .

Table 2

QA. The General Election will take place on Thursday June 8th. Some people have said they will not vote in the General Election, while others have said they will vote. How certain is it that you will actually cast your vote in the General Election next Thursday? On a ten-point scale where 10 means you are absolutely certain to vote in it and 1 means you are certain not to vote in it, how likely is it that you will cast your vote?

NATIONAL UNION OF TEACHERS 18-24s POLL

Online fieldwork dates: 30th May-1st June 2017

Absolutes/col percents

Table 7

QC. Please think back, very carefully to the last general election on May 7th 2015. Some people were not able to vote in that election. Which party did you actually vote for? Was it the Conservatives, Labour, UKIP, Liberal Democrat or for another party, or did you not manage to vote on that occasion?
Base: All respondents

NATIONAL UNION OF TEACHERS 18-24s POLL
Online fieldwork dates: 30th May-1st June 2017

Absolutes/col percents

Table 13

Q1. It has been suggested that voters should show an official ID (like a passport or driver's licence) when they go to vote in polling stations.

If you had to do that, do you think it would ... Discourage other young people you know from voting in a polling station

Base: All respondents

Table 69

Q20. Many people have suggested that young people today are not treated fairly, and that the 'Baby-boomer' generation (those born in the 20 years or so after the Second World War ended in 1945) have enjoyed far too much wealth at the expense of young people in terms of housing, benefits and financial resources.

For each of the following statements do you agree or disagree?

Summary table

Base: All respondents

	Older generations just got lucky and should be allowed to live out their lives accordingly	Older generations have had it far too good and the incoming government should stop treating them better than young people	I know many people resentful of the undeserved wealth of older generations	I have given up hope of ever owning my own home	I expect to be in debt my whole life

NATIONAL UNION OF TEACHERS 18-24s POLL
Online fieldwork dates: 30th May-1st June 2017

Absolutes/col percents

Table 71

Q20. Many people have suggested that young people today are not treated fairly, and that the 'Baby-boomer' generation (those born in the 20 years or so after the Second World War ended in 1945) have enjoyed far too much wealth at the expense of young people in terms of housing, benefits and financial resources.

For each of the following statements do you agree or disagree?

Older generations have had it far too good and the incoming government should stop treating them better than young people

NATIONAL UNION OF TEACHERS 18-24s POLL

Online fieldwork dates: 30th May-1st June 2017

Absolutes/col percents

Table 72

Q20. Many people have suggested that young people today are not treated fairly, and that the 'Baby-boomer' generation (those born in the 20 years or so after the Second World War ended in 1945) have enjoyed far too much wealth at the expense of young people in terms of housing, benefits and financial resources.

For each of the following statements do you agree or disagree?

I know many people resentful of the undeserved wealth of older generations

NATIONAL UNION OF TEACHERS 18-24s POLL
Online fieldwork dates: 30th May-1st June 2017

Absolutes/col percents

Table 74

Q20. Many people have suggested that young people today are not treated fairly, and that the 'Baby-boomer' generation (those born in the 20 years or so after the Second World War ended in 1945) have enjoyed far too much wealth at the expense of young people in terms of housing, benefits and financial resources.

For each of the following statements do you agree or disagree?

I expect to be in debt my whole life

Base: All respondents
